### Free 9 Pin Dot Matrix Fonts

David Kra. The number 9 or 24 refers to the number of pins vertically in the print head. As the head moves left to right, at each position it can fire any combination of pins toward the ribbon and paper. A 24 pin printer might also have finer steps in the horizontal dimension.

### What is the difference between 9 pin and 24 pin dot matrix ...

Dot matrix printers are available in in nine- and 24-pin models. The latter have a higher resolution that's more comparable to other printer types. To decrease the price tag and level of complexity, a nine-pin printer may be preferable if you don't need the best resolution possible. Other Products We Considered

### 5 Best Dot Matrix Printers - Oct. 2020 - BestReviews

The perceived quality of dot matrix printers depends on the vertical and horizontal resolution and the ability of the printer to overlap adjacent dots. 9-pin and 24-pin are common; this specifies the number of pins in a specific vertically aligned space.
