By Neuromusculoskeletal Examination And Assessment

A logical, systematic working guide to the examination and assessment of the neuromusculoskeletal system, combining a wide range of approaches used clinically around the world. It brings together as one process the examination and assessment of the structures involved: joints, nerve and muscle tissue.

Neuromusculoskeletal Examination and Assessment: A ...

Neuromusculoskeletal Examination and Assessment focuses on the development of technical and clinical reasoning skills involved in differential diagnosis of joint, nerve and muscle tissues. It is designed for physiotherapy/manual therapy students and their teachers but is also ideal for those in the first years of their practice as an educational support for patient care.

Neuromusculoskeletal Examination and Assessment: A ...

This logical, systematic working guide to the examination of the neuromusculoskeletal system brings together the examination and assessment of the structures involved: joints, nerve and muscle tissue. Each section follows the same logical, step-by-step sequence of illustrations and text. Each joint examination starts with a list of the possible ...
