Oscar-winning filmmaker Alex Gibney executive produces the four-part series based on Pollan's book, and each episode will focus on a different natural element: fire, water, air, and earth. ** In Cooked, Michael Pollan explores the previously uncharted territory of his own kitchen. Here, he discovers the enduring power of the four classical elements—fire, water, air, and earth—to transform the stuff of nature into delicious things to eat and drink.

Cooked: A Natural History of Transformation: Pollan ...

The title, Cooked: A Natural History of Transformation, says it all. Pollan takes the reader on a food trek: a limited historical account, his own account of transformation into a better cook plus documentation of how processing has transformed the foods of the world.

Cooked: A Natural History of Transformation by Michael Pollan

In Cooked, I think he has reached a new peak in his powers of synthesis and observation. Cooked is divided into four parts, analogous to the four elements described by the ancient Greeks: Fire, Water, Air and Earth. Of these, it was the section on Earth (fermentation) that really made me sit up and take notice.
