Fashion draping allows you to get started making your own clothes right away, even before you are ready to sew. While it's common for designers to create garments based solely on flat pattern-making techniques, draping brings the process into the third dimension, allowing you even more creative freedom while teaching you how to better achieve a great fit.

Draping for fashion design is the process of positioning and pinning fabric on a dress form to develop the structure of a garment design. A garment can be draped using a design sketch as a basis, or a fashion designer can play with the way fabric falls to create new designs at the start of the apparel design process.

Author Helen Joseph-Armstrong incorporates three draping techniques—manipulating dart excess, adding fullness, and contour draping—in design projects featured throughout the text. Projects begin with a draping plan and fashion drawing to identify its creative elements, and determine the draping technique required.
