Google Sketchup For Dummies

Google SketchUp How to Animate Sections with Scenes in SketchUp Combining section views with scenes to create an animation is both a useful and impressive way to show off your SketchUp model. The basic idea is that you can use scenes to create animations where your section planes move inside your model.

Some tools in SketchUp draw full faces at once. For example, if you select the rectangle tool, you can click once to set your first point, then click again to set a second, and SketchUp will draw the perimeter of a shape and fill it in. You can see how in the corner in this tool, it has 2 inputs - length and width.
