It is printed in two colors on kraft cover weight stock and combines both wood type and metal type. Because of the amount and variety of size of the type included, it was printed on a Vandercook proof press. To justify the type, it has to be letterspaced extensively, as shown in the close ups.

The Printing Process: Letterpress Printing with Antique Type

Metal and wood type, the cabinets designed to hold these blocky letters and numerals, and letterpresses themselves are among the pieces of hardware collected by fans of printing technology. These essential printmaking ingredients have changed relatively little since Johann Gutenberg invented the movable-type printing press sometime in the 1440s.
